Curriculum Vitae

Dr. Claudia Neuendorf

I am a researcher working at the intersection between educational psychology, social psychology, sociology and education. My main interest are student's peer relationships in the classroom and how they shape learning and development. Specifically, how does (multidimensional) classroom composition influence relationship patterns and how can we intervene to establish classroom ecosystems beneficial for children and adolescents? I enjoy cross-disciplinary research collaboration and believe that we can advance science significantly with joint efforts and considering multiple perspectives.

Academic background

11/2023-current	Post-doctoral researcher University of Potsdam Project „Multidimensional Heterogeneity in the Classroom: Measurement, Effects, Mechanisms (MuHiK)“ (since 10/2024: project coordination)
01/2022-10/2023	Post-doctoral researcher University of Tübingen Hector-Institut for Education Science and Psychology
05/2018 – 10/2022	PhD Educational Science at the University Potsdam (*summa cum laude*)
02/2021 // 04/2021	Visiting researcher Linköping University, Schweden Institute for Analytical Sociology (Kooperation with Prof. Károly Takács)
05/2014 – 12/2021	Doctoral researcher Institute for Educational Quality Improvement at Humboldt-Universität zu Berlin, Germany
